

CHALLENGER
WENT FASTEasily Outsailed the Old
Shamrock.

FIRST TEST ON THIS SIDE

The Shamrock III Gained a Minute
in Every Mile of the
Course.

New York, June 29.—Sir Thomas Lipton's new cup challenger, the Shamrock III., has been given her first test in American waters in an informal trial with the Shamrock I. off Sandy Hook. In the first ten miles of a fifteen mile beat to windward in a very light air the new boat beat the old one about ten minutes and in a run of fifteen miles to leeward nine minutes. After beating offshore from Scotland lightship for ten miles the Shamrock III. turned about and rejoined the older boat, after which they sailed down along the Jersey coast past Long Branch and then squared away for Scotland lightship again. There was a long gentle sea, and the new challenger slipped cleanly over it, making little fuss under her bow.

Taking into consideration the assertion by English yachtsmen that the Shamrock I. is ten minutes faster in a thirty mile course than she ever was and fully as much faster than the Shamrock II., the new boat's first performance on this side of the Atlantic marks her as probably the most dangerous challenger Sir Thomas has brought over. In a light air and smooth water she showed herself to be very fast. The chief purpose of the trial was to stretch the sails and resume the tuning up of the new boat.

Sir Thomas Lipton, who sailed on the new boat, says that he means to have his yachts out every day it is possible to take them out.

In the first trial against the Shamrock I. the two boats were cast off at 12:20. Sir Thomas and Designer Pffe boarded the Shamrock III. and Colonel Neill the Shamrock I., and the yachts started to beat seaward against a four knot wind from south by east. The Shamrock III. was slightly in the lead at the start and began at once to add to it. After making a short tack toward the Jersey shore the yachts headed off southeasterly.

Points High and Footh Fast.

The new boat pointed higher and footed faster than the Shamrock I. They headed out to sea for more than two hours, and during all that time the Shamrock III. gained steadily. At 2:45, when the challenger was leading the Shamrock I. by ten minutes, the Shamrock III. turned about and ran back to rejoin the other. Crossing the wake of the old boat, the Shamrock III. was given a freer wind and sent off for a five mile run at a fast clip down along the Jersey coast.

As the Shamrock I. did not keep in close company with the new boat, there was no opportunity to compare the boats in that point of sailing. The Shamrock III. had passed Long Branch several miles offshore, when at 3:40 both boats came about and, starting close together, headed for Sandy Hook with spinnakers set. Before a light wind they ran fifteen miles along the coast to Scotland lightship, saluted by passing steamers.

The Shamrock III. quickly began to gain on her trial horse and in an hour's sailing and when the boats had sailed over nearly half the course had established a lead of nearly half a mile. This is called the best point of sailing for the older boat.

The Shamrock III. passed the lightship at 5:52, while the ex-challenger was about a mile astern. The Shamrock I. reached the lightship at 6:01, but had lost some time by taking in her spinnaker before reaching the finish. The challenger continued under her own sail to Sandy Hook. The Shamrock I. was towed in by the tug Cutler. Sir Thomas has on board the Eclis a beautiful silver cup which will be presented to the San Diego (Cal.) Yacht club as a racing trophy. It is inscribed, "The Sir Thomas Lipton Cup."

An Idiotic Fad.

The women of some parts of England eat uncooked rice, starch and oatmeal for the purpose of producing a pale appearance of the face. A girl of eighteen at Newcastle-on-Tyne recently died from dyspepsia and perforation of the stomach resulting from this idiotic fad.

Two English Cathedral.

A celebrated English organist, the late Mr. Best, used to affirm that "if you were to fry sausages in Yorkminster or in Westminster abbey it would sound magnificent," which was a hyperbolic way of saying that these two buildings are unexcelled for their acoustic properties.

TWO DROWNED
IN SILVER LAKE

William Dixon and Edward Conklin.

MEN WERE INTOXICATED

With Two Others Had Gone Out
in a Boat On a Fishing
Trip.

Essexburgh Falls, June 28.—William Dixon and Edward Conklin were drowned in Silver lake or Franklin pond, yesterday afternoon. The body of Mr. Conklin was recovered soon after the drowning but at six o'clock this afternoon the body of Dixon had not been found.

These two men in company with B. U. Blake and Richard Holden went out on the pond in a boat to fish. They were all under the influence of liquor and when well out from shore got into a squabble in the boat which soon overturned and threw the whole party in the lake. None of them were in condition to swim to the shore and would have all been drowned had it not been for Robert Anderson who was on the pond in a steam launch and saw the accident. He started at once to their rescue and pulled Blake and Holden into his boat in a badly exhausted condition, but the other two sank before he could reach them.

Blake and Holden were sent home and this morning came back to the pond in a sobered condition and aided in the search for the body of Dixon. A searching party was at once organized and after a short time recovered the body of Mr. Conklin. A watch in his pocket stopped at 4:20 p. m. and this is supposed to be the hour the accident happened. Mr. Conklin was about 25 years old and leaves an aged mother dependent upon him for support.

More than a hundred people have been engaged today in the search for Dixon's body but at last advices this evening it had not been found. He was about 30 years old and leaves a wife and three young children.

Neither of the men who escaped have been arrested and no steps have yet been taken towards an official investigation of the cause of the drowning.

G. T. JARVIS, VICE-PRESIDENT.

Elected to Serve in That Capacity on Rutland Road.

Rutland, June 29.—The semiannual meeting of the Rutland Railroad Co.'s directors was held here Saturday. Eleven of the thirteen directors were present. General Manager George T. Jarvis was elected vice-president to serve during the absence of Dr. W. Seward Webb, the president, who is abroad.

Judge H. H. Powers of Morrisville, a director of the road, said that rumors about the road changing hands and about a receivership are entirely without foundation. Such reports may be most emphatically denied, said he.

Perceval W. Clement, former president of the railroad and now a director, in response to an inquiry said:

"There is nothing to the receivership stories whatever, nor do I understand that there is anything to the idea that the road is to pass into the hands of anybody. The directors had a meeting this morning and considered the question of expenses and income. They concluded it was a wise thing not to declare any dividend in July. The directors also had a letter from Doctor Webb, now in London, saying that his health is not very good and asking to be relieved from the duties of president. The board accordingly made Mr. Jarvis, now the general manager, vice-president to transact during Dr. Webb's absence such executive functions as would devolve upon the president under the circumstances."

Letter to Page Bros.

Barre, Vt.

Dear Sirs: The cheap paint to buy is the one that covers more than you think; the cheap one to wear is the one that is young when old.

Mrs. Moore of Kelsey, N. Y., bought 10 gallons Devco to paint her house two coats; her painters said it would take that. He had 6 gallons left.

Mr. James Akeley's house, in Cairo (Catskill Mountains), N. Y., was painted Devco; it wore 14 years; and the paint was in good condition then. He was going to paint the last we knew; though. That's the way to preserve a house; repaint when there's no occasion.

Yours truly,

F. W. Devco & Co.

P. S.—Reynolds & Son sell our paints.

"Time Will Tell."

Time has told and time will tell again, that Colonial Paint has a brighter color, wears longer and covers more than any compound now sold for painting. Find a man who painted his house some years ago with Colonial Paint and he will tell you what time has told him, that is "that you save money when you paint your house with Colonial Paint." Colonial people only want to get the paint started in a town. Then time tells the story. It says to every one who will listen, it points out to every one who will look, it convinces every one who sees and listens, that Colonial is the best and most economical paint to buy. In fact, The Paint is Colonial. Analysis on each can. Sold by C. A. Heath in Barre.

PYTHIANS' MEMORIAL

Vincitia Lodge, Knights of Pythias.

ADDRESS BY REV. POOLE

Service at Congregational Church Last
Evening Attended By Visiting
Knights.

The Knights of Pythias of this city held their annual memorial service yesterday. The memorial sermon was delivered last evening at the Congregational church by Rev. F. A. Poole, Vincitia Lodge, K. of P., and the Unimformed Rank and several visiting brothers from Montpelier, attending the service in a body.

The sermon by Rev. Mr. Poole was an able and inspiring one, paying high tribute to the fraternal work of the lodge and wishing it God speed in the Master's mission. His text was from St. John 15:15, "No longer do I call you servant for the servant knoweth not what his master doeth."

This lodge, he said, which advocates the noblest principles of friendship and brotherly love and practical them, what shall I say of it? You are pledged, as I understand it, by such friendship, such fidelity and such love as makes men brothers, and I thank you for this opportunity to say God speed.

There are other fraternal bodies who would compare your lodge with theirs, perhaps a little to your disadvantage but you have named the name of friendship and have named your pledge which stands for all that is noble and true in mankind.

The Master's name is friendship and who shall name the works of mercy that have been done in the world through friendship? Your fidelity tells of friends who would rather be found dead than in the wrong. May you continue in your work, the true friendship of mankind.
